

FEND® PORTABLE EYEWASH STATION

The eye wash unit is designed mainly for wall mounting applications but can be used as a standalone unit on a shelf or a bench.

SPECIFICATION:

Model No.: **FE-EW-16G**

- Material: Made of high-density polyethylene.
- Capacity: Maximum capacity of 60L (16 gallons), with an effective working capacity of 40L, ensuring a continuous 15-minute flush.
- Water Injection Hole: Wide opening for easy water filling, equipped with a dust cover for protection.
- Color: Eco-friendly green, visually appealing, and highly noticeable.
- Water Flow: Optimized nozzle design for a gentle yet effective flow, providing a minimum output of 1.5L per minute.

FEATURES & BENEFITS:

- Compact and portable gravity-fed eyewash unit, delivering a continuous flow of water for a minimum of 15 minutes.
- Activation is simple—just pull down the eyewash tray to start the water flow.
- Spray nozzles remain protected from dust, debris, and damage when the tray is closed.
- Constructed from UV-stabilized high-density polyethylene (HDPE), with a bright yellow fold-down tray for easy visibility.
- Integrated molded handle on top ensures convenient handling & is designed to fit securely on the included wall-mounting bracket.
- Wide-fill opening with threaded cap allows for quick and easy filling, inspection & cleaning.
- Supplied with a wall bracket for easy installation.
- Fully compliant ANSI Z358.1:2020 standards as a self-contained eyewash unit.

INDUSTRIES:

COMPONENT LIST:

- Eye Wash Station
- Wall Mounting
- Bracket Assembly

MAINTENANCE:

- Weekly Inspection
- Monthly Water Replacement
- Nozzle and Dust Cover Cleaning
- Flow Rate Testing (Every 2-4 Weeks)
- Annual Full Inspection

INSTALLATION PROCEDURE:

1. Unpacking and Inspection
2. Selecting the Installation Location
3. Filling the Eyewash Tank
4. Positioning and Mounting (if required)
5. Testing the Unit
6. Final Checks and Readiness
